## MEDICAL SIMULATION EXPERTISE FOR IMPROVED PATIENT CARE

Real-world scenarios and simulations greatly enhance training outcomes, and lead to improved patient care. TraumaSim Group offers professional medical trauma expertise and realistic moulage and simulation solutions to support clinical and healthcare trainers.

With a passion and commitment to realism in training, our goal is to eliminate preventable fatalities from trauma-related injuries by utilising realistic simulation. We have the experience and expertise to create real-world scenarios and simulations to suit any situation. Designed and made in Perth, Western Australia, our medically accurate silicone wounds and injuries can be applied to role players or manikins to assist with a range of training levels, and we can provide bespoke solutions to suit your specific requirements.

### MOULAGE

**ONSITE TECHNICIANS | WORKSHOPS & TRAINING**
**KITS & CONSUMABLES | LATEX-FREE PRODUCTS | BEN NYE DISTRIBUTOR**

The highly experienced TraumaSim team has been delivering moulage services, training and workshops to medical, clinical and healthcare educators since 2008. We can apply medically accurate wounds and injuries to manikins or role players in-situ, and we also offer engaging and informative hands-on workshops to assist learning outcomes and create confidence in students.

### TRAUMAWEAR

**SILICONE WOUNDS & INJURIES | RAPID APPLICATION WEARABLES**
**MEDICAL ACCURACY | REPEATABLE USE | MANIKIN ADD-ONS**

All of our realistic wounds and injuries are made from high quality, durable materials with medically accurate detailing. The tapered edges on the individual wounds assist with application and blending, and enable quick application for those without the time for detailed moulage. The TraumaWear range is a rapid repeatable application solution

### TASK TRAINERS

**SUTURE | WOUND PACKING | TOURNIQUET APPLICATION**
**COMBINATION UNITS | BESPOKE PRODUCT DESIGN**

TraumaSim's Part Task Trainer product range allows a variety of training techniques to be used on medically accurate and realistic body parts and wounds, to prepare students to respond effectively to major real-life trauma events. Our products focus on suturing, haemorrhage control, haemostatic dressing and tourniquet application, all supporting vital clinical and healthcare training programs.

### SIMULATION SUPPORT

**CONSULTATION | PLANNING | EQUIPMENT HIRE**
**SPECIAL EFFECTS | ROLE PLAYERS**

Our professional team has the drive and capability to achieve realism in simulation, to promote skills retention and improve overall training goals and outcomes. Offering bespoke scenarios, solutions, products and services, we can work with clinical and healthcare educators to develop realistic scenarios and specific medically accurate trauma wounds and injuries, to create an unforgettable learning environment.
