PREPAREDNESS AND PRE-DEPLOYMENT TRAINING SUPPORT

TraumaSim Group has been strengthening the capabilities of medics and defence personnel across the globe since 2008, providing the services and products needed for world-class emergency and combat care preparedness training.

At TraumaSim Group, we understand the investment and effort that goes into pre-deployment and combat preparedness training, and the mental strain experienced by personnel when they fail to perform in the field. It's the reason we are so passionate about realism in training – it has been proven that the more realistic the simulation in emergency trauma training, the better the outcomes, including significantly increasing student competency; improving the chance of patient survival; and greatly reducing the effects of PTSD on first responders.

TASK TRAINERS

SUTURE | WOUND PACKING | TOURNIQUET APPLICATION
COMBINATION UNITS | BESPOKE PRODUCT DESIGN

TraumaSim's Part Task Trainer product range allows a variety of training techniques to be used on medically accurate and realistic body parts and wounds, to prepare trainees to respond effectively to major real-life trauma events. Our products focus on suturing, haemorrhage control, haemostatic dressing and tourniquet application, all supporting vital preparedness, pre-deployment and tactical combat casualty care training programs.

TRAUMAWEAR

SILICONE WOUNDS & INJURIES | RAPID APPLICATION WEARABLES
MEDICAL ACCURACY | REPEATABLE USE | MANIKIN ADD-ONS

All of our realistic wounds and injuries are made from high quality, durable materials with medically accurate detailing. The tapered edges on the individual wounds assist with application and blending, and enable quick application for those without the time for detailed moulage. The TraumaWear range is a rapid repeatable application solution.

SIMULATION SUPPORT

CONSULTATION | PLANNING | EQUIPMENT HIRE
SPECIAL EFFECTS | ROLE PLAYERS

Our professional team has the drive and capability to achieve realism in simulation, to promote skills retention and improve overall training goals and outcomes. Offering bespoke scenarios, solutions, products and services, we can work with combat forces and military trainers to develop realistic scenarios and specific medically accurate trauma wounds and injuries, to create an unforgettable learning environment.

MOULAGE

ONSITE TECHNICIANS | WORKSHOPS & TRAINING
KITS & CONSUMABLES | LATEX-FREE PRODUCTS | BEN NYE DISTRIBUTOR

The highly experienced TraumaSim team has been delivering moulage services, training and workshops to combat forces and military personnel since 2008. We can apply medically accurate wounds and injuries to manikins or role players in-situ, and we also offer engaging and informative hands-on workshops to help upskill your trainers and empower them to add realism to their next scenario.
