TRAUMASIM®

MANUFACTURING & CONSTRUCTION

WORKPLACE EMERGENCY TRAINING AND RISK PREVENTION

TraumaSim Group aims to eliminate preventable workplace fatalities from trauma-related injuries in the manufacturing and construction industry by providing professional medical trauma expertise, together with real-world moulage and simulation solutions.

Real-world scenarios and simulations greatly enhance risk prevention and preparedness training, as well as significantly improving the chance of patient survival and reducing the effects of PTSD on those attending. TraumaSim has the experience and expertise to create real-world scenarios and simulations to suit any situation. We can provide customised solutions to suit your specific workplace environment, risks or requirements, including bespoke, medically accurate task trainers or silicone wounds and injuries that can be applied to role players or manikins.

SIMULATION SUPPORT

CONSULTATION | PLANNING | EQUIPMENT HIRE
SPECIAL EFFECTS | ROLE PLAYERS

Our professional team has the drive and capability to achieve realism in simulation, to promote skills retention and improve overall training goals and outcomes. Offering bespoke scenarios, solutions, products and services, we can work together with the experts in your industry to develop realistic scenarios and specific medically accurate trauma wounds and injuries, to create an unforgettable learning environment.

TRAUMAWEAR

SILICONE WOUNDS & INJURIES | RAPID APPLICATION WEARABLES
MEDICAL ACCURACY | REPEATABLE USE | MANIKIN ADD-ONS

All of our realistic wounds and injuries are made from high quality, durable materials with medically accurate detailing. The tapered edges on the individual wounds assist with application and blending, and enable quick application for those without the time for detailed moulage. The TraumaWear range is a rapid repeatable application solution.

TASK TRAINERS

SUTURE | WOUND PACKING | TOURNIQUET APPLICATION
COMBINATION UNITS | BESPOKE PRODUCT DESIGN

TraumaSim's Part Task Trainer product range allows a variety of training techniques to be used on medically accurate and realistic body parts and wounds, to prepare trainees to respond effectively to major real-life trauma events. Our products focus on suturing, haemorrhage control, haemostatic dressing and tourniquet application, all supporting vital first aid training and emergency response team programs.

MOULAGE

ONSITE TECHNICIANS | WORKSHOPS & TRAINING
KITS & CONSUMABLES | LATEX-FREE PRODUCTS | BEN NYE DISTRIBUTOR

The highly experienced TraumaSim team has been delivering moulage services, training and workshops to the manufacturing and construction industry since 2008. We can apply medically accurate wounds and injuries to manikins or role players in-situ, and we also offer engaging and informative hands-on workshops to help upskill your trainers and empower them to add realism to their next scenario.
