SILICONE WOUNDS & INJURIES | RAPID APPLICATION WEARABLES
MEDICAL ACCURACY | REPEATABLE USE | MANIKIN ADD-ONS

Liven up your training and really prepare your students and personnel for real-world situations with our TraumaWear range.

Designed for rapid and repeatable application, TraumaSim Group's TraumaWear range of realistic silicone wounds and injuries are latex free and made from high quality, durable materials with medically accurate detailing. They are available as individual wounds with tapered edges to assist with application and blending, creating a seamless look on your manikin or live talent, or as pull-up or strap-on solutions for your role players and include options for simulated bleeding.

AROUND THE GLOBE, ACROSS INDUSTRIES

TraumaWear is a wearable, robust wounds and injuries range for trainers without the time for intricate moulage application.
